PROFESSIONAL EXPERIENCE

Junior Software Developer & Scrum Master — Atya Consultancy Services, Bangalore

Dec 2024 – Present

- Developed and maintained mobile and web applications using Flutter; integrated Firebase Authentication (Google Sign-In & Email/Password).
- Built adaptive, responsive UIs from Figma designs — translated mockups directly into production-ready Flutter interfaces.
- Facilitated Daily Stand-ups, Sprint Planning, Backlog Grooming, and weekly Retrospectives as Scrum Master.
- Managed full task lifecycle in GitHub Projects: Backlog → To-Do → In Progress → In Review (PR) → Done; monitored PRs for timely review.
- Tracked sprint deadlines; applied 'Delayed' labels with root-cause documentation for transparent progress reporting.
- Enforced English-communication days (Mon/Wed/Fri) and organised weekly knowledge-sharing sessions to upskill the team.
- Performed daily QA testing; attended all stakeholder meetings and maintained detailed project documentation.

PROJECTS

Stocks Portfolio & Automated Trading App

- Built a fully automated trading system in Flutter with scanner-based stock selection and terminal integration.
- Implemented scanner logic to analyse prior-day prices and indicators, shortlist assets, and trigger CLI buy/sell execution.
- Designed pre-market automation allowing buy/sell orders before market open; built rich dashboards and trade-flow UI.

Learning Management System (LMS)

- Built a full LMS ecosystem: Admin web panel + Student mobile app using Flutter with separate custom libraries per build target.
- Implemented custom mail extension for automated in-app emails (welcome, alerts, password reset); integrated with Firebase Auth.
- Developed reusable widgets for lesson management, course navigation, and authentication flows.

Food Truck App

- Architected modular, scalable app structure with reusable libraries; built login & OTP verification screens with animations; integrated Firebase authentication.

Election App (Client: African Country)

- Developed responsive Android & Web UI with Flutter; designed splash, login, and landing screens; deployed demo for client presentation.

Food Delivery App

- Designed UI in Figma; implemented login & food listing screens; integrated Firebase for authentication and data storage.
